1510/1511
Pocket Door Jamb Kit
for 4 9⁄16" Walls for Doors up to 3'0"x6'8"

GENERAL DESCRIPTION

A fast, convenient method of finishing Pocket Door Frames.
Just cut to length and install--no ripping of special thickness stock.
Pre-sanded so finishing is a snap.
(Since a wide variety of casings are available, they are not included.)

Ⓒ SPLIT HEADERS (2)
7/16" (11mm) X 1-3/8" (35mm)

Ⓐ STRIKE JAMB (1)
11/16" (17.5mm) X 4-9/16" (116mm)

SPLIT JAMBS (2) Ⓑ
7/16" (11mm) X 1-3/8" (35mm)

The 1510/1511 Jamb Kits are made of
finger joint (primed for paint) pine (1510)
or stain grade pine (1511). The kits are
for 4-9/16" (116mm) jambs
and 1-3/8" (35mm) door sizes
up to 3'0" (914mm) X 6'8" (2,032mm),
and are universal, so they should fit
most pocket door frames.

In addition to making a perfect
companion to the
Johnson 1500 Pocket Door Frame,
the 1510/1511 Jamb Kit will
enable builders or do-it-yourselfers
to install the jambs according
to our recommended instructions.

**Johnson** HARDWARE®

1510/1511
Installation Overview

1 **INSTALL** Pocket Door Frame following instructions as normal, including drywalling around opening. Carefully measure height "A" (from floor to bottom of frame header). Cut 11/16" (17.5mm) X 4-9/16" (2,032mm) Strike Jamb to this length.
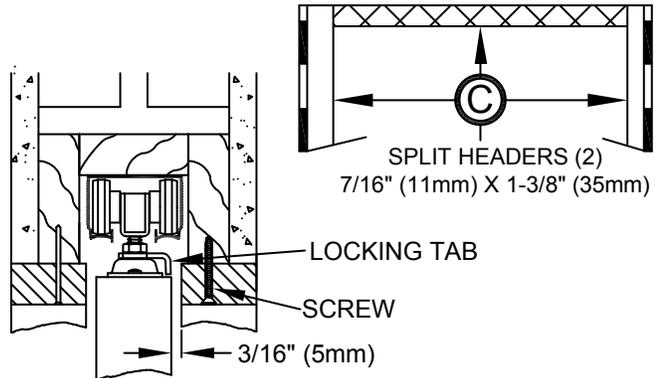

A

2 **OPEN** door fully (door will protrude into opening) and cut split jambs to "B" Fasten to front edge of frame. Maintain minimum 3/16" (4.7mm) clearance on both sides of door. Raise or lower hangers to plumb door with split jambs.
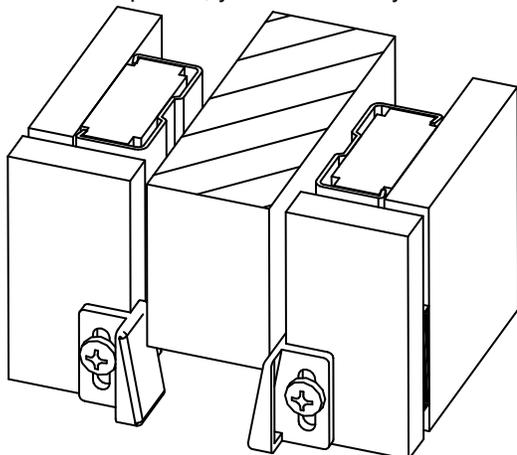

SPLIT JAMBS (2) **B**
7/16" (11mm) X
1-3/8" (35mm)

3/16" (5mm)

3 **SHIM** and plumb strike jamb (wide piece) with door.
